# JEEP GLADIATOR DESIGN PROPOSALS

BECOME A PART OF THE MOPAR DESIGN TEAM BY HELPING TO INVENT NEW PRODUCTS OR ACCESSORY FEATURES THAT IMPROVE THE LOOK AND PERFORMANCE OF THE NEW JEEP GLADIATOR

IDEA STARTERS :

**PAINT JOBS/ VINYL GRAPHICS**

**BODY PROTECTION FOR OFF ROAD**

**NEW WHEELS AND TIRES**

**RACKS TO MOUNT BIKES OR OTHER ITEMS**

**LIGHTS, CAMERAS, SAFETY TECHNOLOGY**

THINK ABOUT:

**Who is going to use this vehicle?**

What are their hobbies? What are their interests?

**What do you like to do?**

Could you design something that makes the Gladiator better and more usable for your favorite things?

**Where would you like to go in a vehicle like this?**

Is there anything that the Gladiator might need to get you there without breaking? What things might you need once you get there? Is there a good place to store those items?
